the Cottonwood Park City

*Plans are subject to change.

The Cottonwood by Todd Campbell Custom Homes offers a new blend of living and luxury. Designed for the family this home offers ample bedroom space, but at the same time offers multiple areas of the home for living and recreating. The addition of a second master suite offers flexibility as aging parents need a place for care or an older son or daughter returns home. The functionality of the home is endless. The 5 bedrooms will allow even the biggest of families room to spread out and enjoy the space. The large kitchen with double ovens, 5 burner cooktop and built in microwave will allow for gourmet meals and good

times. The large great room and large windows bring to life the living space by offering light and ambiance to radiate from the home. With storage galore and a large 3 car garage you will have space for all of the items a large family has. The three different elevation types offers a way to personalize the home to your liking. This well designed functional plan is yours for the taking... and do not be afraid to ask about customizing this plan to your specific needs. That is what we are all about at Todd Campbell Custom Homes. We are here to make the home yours.
